Summary

Trilingual Computer Science student with hands-on experience in developing small programs using Python and C++. Strong foundation in data structures, and clean coding principles. Experienced in team leadership and digital marketing. Eager to find opportunities where I could fit in the Software Industry.

Education

Cairo University

Oct 2024 – Aug 2028 (expected)

B.S. in *Computer Science*

GPA: 3.24

Relevant Coursework: Structural Programming, Object Oriented Programming (OOP), Discrete Math, Mathematics, Data Structures, Database, Network

Projects

Bank System with ATM Service

- Built a banking management system with ATM functionality using C++.
- Simulated core banking features: *user access control*, *account records*, and *ATM module*.
- Emphasized **functional programming** and clean **C++ code**.
- [View on GitHub](#)

Joie Arts - GUI Filter Application

- A modern C++ / Qt-based Image Team-oriented Filter Application that provides an interactive, slider-driven interface for image editing, transformations, and artistic effects with **+25 filters**.
- My role was to build the C++ architectural design of the project; I maintain the structure so that my teammates could integrate the other parts of the project — the filters & the GUI.

Experience & Extracurricular Activities

Game Development Community, Cairo University

Oct 2024 – Present

Non-Technical Lead

- My journey starts as a Digital Marketing member to DM Head leading to Non-Technical Lead.
- Led digital marketing strategies to promote game development activities on campus.
- Managed social channels, visual identity, and branding efforts.
- Increased engagement and streamlined member communications which led to grew Facebook Followers **by more than 30% at my first year**.

Digital Egypt Cubs Initiative (DECI)

— Oct 2023

- Participated in national-level digital training for youth development in tech fields.
- Understand Basic Concepts of Computer Fields: Cybersecurity, Web Development, Graphic Design.
- Engaged in on-site as well as virtual sessions, experienced teamwork through each task, learned to deal with Slack to measure productivity and team communication.
- Finished the DECI Program by a capstone Project; A *statement-based game* in **Python**.

Certifications & Courses

- Git & GitHub, Data Science 365 — Nov 2024
- Python Programmer Bootcamp, Data Science 365 — Nov 2024
- HubSpot Marketing Course, HubSpot Academy — July 2025

Skills

- Programming Languages: Python, C++, Java
- Tools: Git, GitHub, VS Code, MS SQL Server
- Soft Skills: Marketing, Communication, Storytelling, Content Writing
